The European Truck Parking Area LABEL Project

LABEL is a € 2.7 million European Commission - [DG MOVE](#) - part funded project, aimed at establishing and encouraging a certification system, with broad acceptability, for Truck Parking Areas in Europe.

The full title of this project is *Creating a Label for (Secured) Truck Parking Areas along the Trans-European Road Network and Defining a Certification Process. Including Online Information Facility.*

LABEL is about

- creating a Label for (Secured) Truck Parking Areas along the Trans-European Road Network
- defining, setting up, implementing and evaluating a certification process including an online information facility
- communicating with interest groups and disseminating the results.

LABEL's stated objectives are to

- validate existing draft international standards for adequate facilities for professional drivers
- have at least 70 (truck park area) sites certified in at least 10 Member States.

The project duration is 29 months, starting September 2008.
